Great work by Justin Anderson at Saturday's Vex IQ Robotics Competition at Buffalo and Erie County Library's central location!

Justin and the Nativity Warrior robot finished 4th out of 11 teams in the first round of competition and then in the playoffs, allied with Vincenzo and the SSS Viper robot from St Stephen's School, they took the Second Place trophy and won a Teamwork Award as well. Great design work by the team of Justin Anderson, Brian Eiskant, Patrick Notaro, Danny Kirkpatrick, Harrison Davis, Aidan Hart-Nova, Joe Wischerath, and Dan Buscha. Many thanks to our Vex Robotics coaches: Mr Gardon, Mr D'Arienzo, Mr Kirkpatrick, Mrs. Tahk, and especially to Mr. Cellino, who took time from his UB Engineering student demands to mentor us all each week and then to join us at the Library on Saturday.
